Personal Networks: Enriching Life in the Present and Providing for the Future

TEXAS NETWORK CONNECTIONS
Creating Community for People with Disabilities
How are we, as parents, going to make sure that our son or daughter with a disability has a good life, both now and after we die?

Who will make sure that the plans we have arranged and the services we have secured are implemented and functioning well after we are gone?

How do we make sure our child is not lonely, isolated or neglected?

How do we give caring friends and family an opportunity to have a fulfilling relationship with our child?

How am I, a person with a disability, going to achieve these goals for myself?
Not Alone!

What is a Personal Network?

A personal network is an intentional community of friends, family members and acquaintances who assist and collaborate with a person at risk of isolation and his/her family. Personal networks promote planning and social opportunities, assist with decision-making and goal setting, and work with the person at the center to be a sustainable resource after parents can no longer be available.

Networks In Action!

Photograph of Two Network Members
Five Key Components of Networks

#1 Relationships are the key to a good life and the foundation of networks

#2 No disability precludes relationship

#3 Successful networks are directed by individuals and/or families

#4 Networks focus on contribution

#5 Everyone benefits -- community
Starting a Network
Start Young!

The Three Phases of Network Development:
Invitation, Development & Maintenance

Photograph of Two Network Members
Phase One: Invitation

Network Group Photograph
Invitation: Who do I Invite?

- Identify people in your life:
  - Immediate and extended family
  - Neighbors, family friends, church members
  - Professionals who have worked with you, your son, or daughter (school, attendants, therapists, etc)
  - People who you want to get to know better, but have never known how to
  - People who share common interests with you
Siblings Love Networks!

Invitation: Is it easy?

Photograph of Two Network Members
Or is it hard?
Asking is the #1 challenge to starting a network
Invitation: Host an Invitation Meeting

- Snacks and socializing
- Welcomes and Introductions. How do you know the person at the center?
- What is a personal network?
- Why are we starting a personal network?
- What are the commitments of network members?
- The Ask: To join or not join the network?
Phase Two: Development
The Journey Begins: Network Meetings

Taking Care of Business

AGENDA

Introductions. What’s new with members?

Getting started: Develop the Network

- Think about a name
- List and assign roles
- Communication tool: Email? Text? Website? Facebook?
- Decide when to meet, how often, where, etc…

Getting to know Maverick and his supports, part 1:

Activity Calendar:

- Deadlines
- Appointments
- Celebrations

Next Meeting

Adjourn
Development: Network Meetings
Format & Goals

Photographs of Network Members and Network Activities
Development: What Do Networks Do?

- Meet for two hours, 3-4 times per year
- Provide social opportunities
- Help person at center to identify and articulate his or her needs from the network
- Offer guidance and mentorship
- Assist with goal setting
- Monitor services
- Learn about disability issues
- Explore employment options
- Eat good food and drink
- Have fun!

Developing a healthy, sustainable network takes years. And...that’s okay. Networks are a work in progress!
Over time, as networks mature, relationships deepen and members become more invested in each other’s lives.
